

What value does Data-Tech bring to a Cloud Provider Partnership?

Most Cloud Providers only host their own application. They stay away from Hosting Full Client Desktops for a variety of reasons. Most importantly, they want to focus on what they do best, which is their product.

Data-Tech is Managed Services Provider for Cloud Services, IT Security, Remote Desktop and Premise Endpoint Security. Specializing in providing Cloud Desktops along with complete Business Infrastructure for clients. We offer a Shared Cloud, Hybrid Cloud and Dedicated Cloud Infrastructure to meet any client’s needs and budget. ***Our Advantage is we own our Private Data-Center and Infrastructure.**

With a Cloud Desktop from Data-Tech, clients can take advantage all the applications they need for business. Our Hyperion Platform includes All SSD Drive Servers, 10gb Network, Secure Access with Parallels Remote Access Server, Microsoft Office 2016, Cloud 365 Email Services (with Spam & Virus Protection, Email Archiving and Email Encryption), and Full 24 hour In-House Data-Center Help Desk Support. Optionally clients can extend Security and Help Desk Services to their office with our Managed Endpoint and Security for Users, PC’s and Mobile Devices.

Collaborating with Data-Tech means we can add your application to our hosted desktop to provide clients with a complete business solution with On Demand support and a variety of business tools.

We have been migrating client’s entire infrastructure from local office to Data-Tech’s Cloud Center for over 15 years. Small, Medium and even Enterprise business are still operation with on a local client server infrastructure. A Full Migration to the Cloud gives the clients Enterprise Level IT Infrastructure and Services at SMB Prices. Data-Tech’s Cloud Desktops are available from any device. (Windows, Android, Apple iOS and Mac).

Our HTML5 Gateway provides a fast and secure way to connect users to their cloud desktop while the Desktop Application gives you seamless integration with your local resources.

- No more concern about upgrading servers or software.
- No more worries about Data Backup and Recovery.
- No more surprise IT Costs.
- No more frustrated staff.
- Support is just a click, email or phone call away.
- Moving to the cloud gives you a fixed all-inclusive budget.

Partnering with Data-Tech gives you a clear advantage over your competition. Now you can offer a Seamless Business Solution to your clients with Cloud Desktop, Applications, Support & Security.
